

Dear Sir/Madam:I love my Satellite Radio. Since I travel one hour each way to and back from work, the "XM Instant Traffic & Weather" benefits me greatly. I would not be able to receive this instant information any other way.

Since I am paying for this service, I do not feel that the National Association of Broadcasters has the ability to dictate what I am allowed to hear.

I respectfully urge the FCC to reject the NAB's Petition #04-160 and please support XM's ability to provide the kind of programming that I enjoy.
